

Land Division Exercise

On the next page is your piece of land! You have to design how the plots are going to be divided between houses, businesses and roads!

Take 3 colored pencils and choose a color for business, homes and road, then have fun on the land map! You must use full squares.

Small plot for home

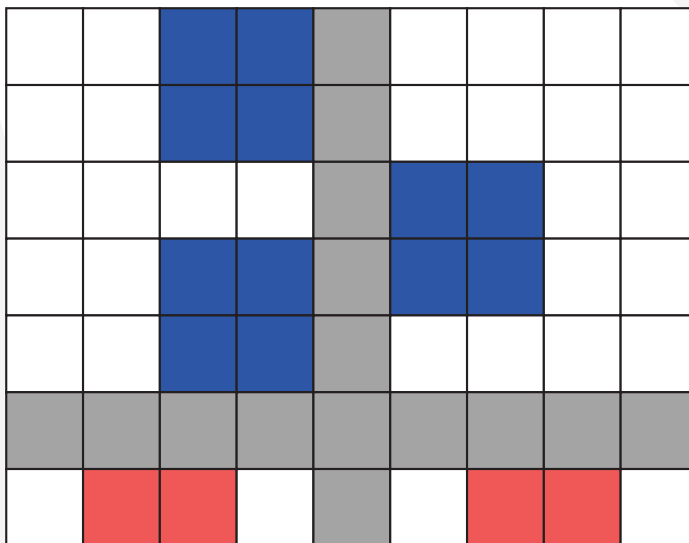

Large plot for business

Roads are 1sq wide and can run in lines

Example:

**3 businesses,
2 homes and
2 long roads.**

This is your land. Plan wisely!
