

Physical/Fun Activity

Brittney graduated at a very young age! Can you imagine being at the graduation with all those older people?

Imagine you are there, at the graduation with all the adults but you don't want anyone to know you are really a kid!

Create a few conversations and act out a short play showing the conversations you would have with the adults at the graduation! Even dress up like an adult if you are allowed!

Let's see if you can trick any real adults in your life!
