

Physical/Fun Activity

This activity requires some research!

Research or ask an adult what a bank does and how it does it. What they do with money and why they take money from people.

Ask an adult to come and open a bank account with your new savings bank.

They may ask you questions such as “What will you do with my money? How can I be sure it is secure?”, with your research be prepared to answer.

Remember, you are a bank manager so you also need to dress well and look smart, be knowledgeable and trustworthy. Show the adults how strong the vault is and walk them around the bank and show them your fine institution.
