

# Physical/Fun Activity

**Get an adult to print out and cut out the pretend money from the next page.**

**You have \$360 pretend dollars that you can earn.**

**What jobs do you have to do to earn that money? Make up different jobs and work out what you need to do to earn all the money!**

**You can pretend to work in a store, be a sports star, run a big company, farm vegetables, go to space or whatever jobs you think would earn you this money.**

**Pretend to do these jobs and show an adult so they can let you know if you worked hard enough to earn the pretend money.**
